----------------------	-----	-----	-----	-----	-----	-----	-----	-----	-----

A key initiative under its environmental strategy is the “30 by 30” goal—an ambitious target to achieve a 30% absolute reduction in carbon emissions by the year 2030.

On the social front, Rallis implements a wide range of Corporate Social Responsibility (‘CSR’) projects, particularly around its manufacturing units. These initiatives emphasise on:

- Education
- Skill development
- Employability and entrepreneurship

Through these efforts, Rallis continues to reinforce its role as a responsible corporate citizen committed to sustainable and inclusive growth.

The Company is committed to uplifting underprivileged groups, persons with disabilities, and affirmative populations by supporting livelihood enhancement and the holistic development of the communities it serves.

To operationalise these commitments, Rallis has implemented key policy frameworks, including:

- CSR Policy
- Affirmative Action Policy
- Diversity & Inclusion Policy
- Business & Human Rights Policy

These policies are guided by the Tata Code of Conduct (‘TCoC’) which governs the Company’s interactions with all its stakeholders—employees, customers, value chain partners, communities, investors, and society at large, while also emphasising environmental stewardship.

Strong governance mechanisms have been established to ensure adherence to these principles, aligning all actions with the TCoC’s ethical standards.

10 a. Whether an occupational health and safety management system has been implemented by the entity? (Yes/ No). If yes, the coverage of such system

Health and safety management system implemented by the entity (Yes / No) : Yes

Coverage system : The Company's Safety & Health Management System encompasses operations across all manufacturing locations, offices, research laboratories, and supply chain partners, ensuring the protection of the environment, and the health and safety of its employees, contractors, visitors, and other relevant stakeholders. The Company has also adopted a comprehensive Environment, Health & Safety (EHS) Policy, which is available on its website at: <https://www.rallis.com/EHSPolicy>

b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

Risk Management Process

Rallis India Limited has a comprehensive Risk Management Process in place, critical for preventing incidents, injuries, occupational diseases, and ensuring both emergency preparedness and business continuity.

Structured Risk Assessment & Management Process

Regularly reviewed and updated to ensure the mitigation of identified risks.

Hazard identification is carried out by a trained cross-functional team for both routine and non-routine activities.

Risk Assessment Tools and Techniques

Risk is assessed through various methods including:

1. Hazard Identification and Risk Assessment (HIRA)
2. Job Safety Analysis (JSA)

3. Standard Operating Procedures (SOP) (referred before starting any activity)
4. Identified hazards are addressed using a hierarchy of control approach to implement operational controls
5. Advanced Risk Management Techniques
6. Process Hazard Analysis (PHA)
7. What-If Analysis
8. Failure Mode Effect Analysis (FMEA)

These techniques are applied on a case-to-case basis depending on the nature of the activity or hazard.

Hazard Identification and Mitigation

Key process hazards identified at the sites include the storage and handling of toxic chemicals (e.g., Ammonia, Bromine, Solvents) and flammable materials (e.g., fuel).

These hazards are managed through Quantitative Risk Assessment, HAZOP studies, and Engineering Controls.

Focus on Process Safety and Risk Management (PSRM)

Over the past four years, Ankleshwar and Dahej, Gujarat manufacturing units have been specifically working on Process Safety and Risk Management (PSRM) to address and mitigate process-related risks.

c. Whether you have processes for workers to report the work related hazards and to remove themselves from such risks. (Yes/No):

Yes, the work related hazards are identified and addressed through daily plant rounds and cross-functional safety observation rounds. All employees can report unsafe conditions, incidents, and observations through an online safety portal. These reports and their resolutions are reviewed and tracked daily. During the risk assessment process, adequate controls are identified by a cross-functional team with participation from all work levels.

d. Do the employees/ worker of the entity have access to non-occupational medical and healthcare services? (Yes/ No)

Yes, all the employees are covered under the Company’s Medclaim Insurance Policy and Group Personal Accident Policy. In addition to this, workers are entitled to medical benefits through company-provided group insurance plans and statutory provisions under the Employees’ State Insurance (ESI) Act.

11. Details of safety related incidents, in the following format:

		Current Financial Year*	Previous Financial Year*
Lost Time Injury Frequency Rate (LTIFR) (per one million-person hours worked)	Employees	0	0
	Workers	0.1046	0.098
Total recordable work-related injuries	Employees	0	0
	Workers	4	8
No. of fatalities	Employees	0	0
	Workers	0	0
High consequence work-related injury or ill-health (excluding fatalities)	Employees	0	0
	Workers	0	0

*This includes permanent workers and contractual workers.

12. Describe the measures taken by the entity to ensure a safe and healthy workplace.

The Company has in place a Board-level Safety, Health, Environment and Sustainability (SHES) Committee, chaired by an Independent Director. This Committee is responsible for reviewing and monitoring the Company’s safety, health, environmental, and sustainability practices to ensure alignment with applicable laws, regulations, and industry standards. It also provides strategic direction and guidance to the Management, ensuring that safety and sustainability considerations are addressed in a timely and effective manner. All incidents are reported to the SHES Committee and are thoroughly investigated and analysed to prevent recurrence. In addition, all plants have their own Occupational Health and Safety (OHS) Committees, with equal representation from permanent employees and permanent workers.

Rallis continues to strengthen its commitment to a safe and sustainable workplace through the following initiatives:

- 1. Adoption of Voluntary Standards:** Implementation of frameworks such as Process Safety and Risk Management (PSRM), ISO 45001, and adherence to Responsible Care® guidelines.
- 2. Benchmarking Practices:** Conducting internal benchmarking to identify best practices across the organisation, and external benchmarking of safety KPIs against industry leaders.
- 3. Leadership Engagement:** Running the Safety Felt Leadership program for employees and business partners to reinforce safety ownership at all levels.
- 4. Executive Oversight:** Monthly reviews by the Managing Director to evaluate the top five safety risks and corresponding mitigation plans.
- 5. Health Surveillance:** Conducting customised medical check-ups based on employees' occupational risk profiles, along with access to appropriate medical facilities.
- 6. Proactive Safety Tracking:** Utilising lead indicators under the Progressive Safety Index (PSI) to proactively monitor and enhance safety performance.
- 7. Training and Awareness:** Equipping employees with the knowledge to recognise and mitigate potential hazards through continuous training.
- 8. Digital Enablement:** Deploying digital tools such as e-learning modules, a data analysis portal, and an online reporting system for near misses, unsafe conditions, behavioral observations, injuries, and incident investigations.
- 9. Cross-site Audits:** Performing regular safety audits across locations to share best practices and identify improvement opportunities.
- 10. 10 Golden Safety Rules and 2 principles:** Redefining and reinforcing the "10 Golden Safety Rules and 2 principles" to ensure clear communication of safety expectations across all stakeholders.

Rallis remains committed to identifying and implementing innovative solutions that enhance its safety culture, with the ultimate goal of achieving "zero harm."

13. Number of Complaints on the following made by employees and workers:

14. Assessments for the year:

Assessment Type	% of your plants and offices that were assessed (by entity or statutory authorities or third parties)
Health and safety practices	100
Working Condition	100

15. Provide details of any corrective action taken or underway to address safety-related incidents (if any) and on significant risks / concerns arising from assessments of health & safety practices and working conditions.

All safety-related incidents are thoroughly investigated, and the learnings from these investigations are systematically shared across the Organisation. This ensures the deployment of appropriate corrective actions aimed at preventing recurrence. The effectiveness of these corrective measures is verified during routine safety audits.

Significant risks and concerns identified through assessments of health and safety practices are addressed by applying the hierarchy of risk controls, ensuring that hazards are managed in a structured and effective manner—from elimination and substitution to engineering controls, administrative measures, and personal protective equipment.

Leadership Indicators

1. Does the entity extend any life insurance or any compensatory package in the event of death of

(A) Employees and (B) Workers (Y/N):

Yes, Rallis has a scheme in place to provide Financial Assistance to the legal dependents of the permanent employees/workers in case of death while in service. 5. Describe the internal mechanisms in place to redress grievances related to human rights issues.

The Company has a policy in place for Business and Human Rights. It is committed to maintaining a safe and harmonious business environment and workplace for all individuals, and believes that every workplace should be free from harassment and other unsafe or disruptive conditions. To support this commitment, the Company has established an ethics framework comprising a team of ethics counsellors to address grievances related to ethics and human rights, as well as a team of POSH (Prevention of Sexual Harassment) committee members to handle related issues. Additionally, a third-party helpline is also available for grievance redressal.

6. Number of Complaints on the following made by employees and workers:

Complaint Type	FY 2026 Current Financial Year			FY 2025 Previous Financial Year		
	Filed during the year	Pending resolution at the end of year	Remarks	Filed during the year	Pending resolution at the end of year	Remarks
Sexual Harassment	0	0	-	0	0	-
Discrimination at Workplace	5	0	-	4	0	-
Child Labour	0	0	-	0	0	-
Forced Labour/ Involuntary Labour	0	0	-	0	0	-
Wages	0	0	-	0	0	-
Other human rights related issues	0	0	-	0	0	-

7. Complaints filed under the Sexual Harassment of Women at Workplace (Prevention, prohibition and Redressal) Act, 2013, in the following format:

Safety Incident/Number	FY 2026 Current Financial Year	FY 2025 Previous Financial Year
Total Complaints reported under the Sexual Harassment on of Women at Workplace (Prevention, prohibition and Redressal) Act, 2013 (POSH)	0	0
Complaints on POSH as a % of female employees / workers	0	0
Complaints on POSH upheld	0	0

8. Mechanisms to prevent adverse consequences to the complainant in discrimination and harassment cases.

- An independent Internal Committee (IC) drawn from cross-functional/location employees, follows the process/guidelines as per the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013.
- The Whistleblower Policy ensures that no unfair treatment is meted out to any Whistleblower as a result of reporting a Protected Disclosure under the policy. The Company strictly prohibits and condemns any form of discrimination, harassment, victimisation, or unfair employment practices against Whistleblowers. It provides complete protection against retaliation, including threats or intimidation, termination or suspension of service, disciplinary action, transfer, demotion, denial of promotion, or any direct or indirect misuse of authority that may hinder the Whistleblower from performing their duties or making further Protected Disclosures.

9. Do human rights requirements form part of your business agreements and contracts? (Yes / No)

Yes, the Company has incorporated specific clauses from its TCoC into its business agreements, contracts, and purchase orders. Human Rights form a part of TCoC.

10. Assessments for the year:

	% of your plants and offices that were assessed (by entity or statutory authorities or third parties)
Child labour	100
Forced/involuntary labour	100
Sexual harassment	100
Discrimination at workplace	100
Wages	100
Others – please specify	N.A.

11. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 10 above

Not Applicable

Leadership Indicators
1. Details of a business process being modified / introduced as a result of addressing human rights grievances/ complaints.

Business and Human Rights Policy was adopted in FY 2021-22. So far there have been NIL grievances.

2. Details of the scope and coverage of any Human Rights due diligence conducted.

The Company conducts human rights due diligence as part of its enterprise risk management and ESG processes. The scope of the due diligence covers the Company's own operations, including all employees (permanent and contractual). The assessment focusses on key human rights risks such as non-discrimination, child and forced labour, freedom of association, wages and working hours, occupational health and safety, and prevention of harassment.

Coverage includes all major manufacturing locations and offices in India. The due diligence process is aligned with the UN Guiding Principles on Business and Human Rights and findings are reviewed by senior management with mitigation actions tracked periodically.

3. Is the premise/office of the entity accessible to differently abled visitors, as per the requirements of the Rights of Persons with Disabilities Act, 2016?

Yes, Most of our working locations are accessible to differently abled persons.

4. Details on assessment of value chain partners:

	% of value chain partners (by value of business done with such partners) that were assessed
Sexual Harassment	0
Discrimination at workplace	0
Child Labour	0
Forced Labour/Involuntary Labour	0
Wages	0
Others – please specify	0

5. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 4 above.

Energy intensity in terms of physical output - Production in GJ/ MT [#]	14.35	16.77
Energy intensity (optional) – the relevant metric may be selected by the entity	-	-

* Energy consumption through other sources includes steam purchased

**The revenue from operations has been adjusted for PPP based on the latest PPP conversion factor published for the year 2026 by IMF for India which is 20.34.

[#]Since Rallis India Limited, has two different types of businesses, namely, crop care and seeds processing, wherein the physical output is reported in different units of measurement, hence, the data for intensity in terms of physical output (tonnes of production) is reported for the Crop Care business which contributes to approximately 96% of our energy consumption. The energy intensity in terms of physical output for our seeds processing business is 1.12 GJ/ MT of seeds processed for FY 2025-26 and 1.05 GJ/ MT of seeds processed for FY 2024-25

Indicate if any independent assessment/evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Assurance has been carried out (Yes / No) : Yes

Name of external agency: KPMG Assurance and Consulting Services LLP

2. Does the entity have any sites / facilities identified as designated consumers (DCs) under the Performance, Achieve and Trade (PAT) Scheme of the Government of India? (Y/N) If yes, disclose whether targets set under the PAT scheme have been achieved. In case targets have not been achieved, provide the remedial action taken, if any.

Have sites? (Yes / No): No

Targets achieved? (Yes / No) : N.A.

In case targets have not been achieved, provide the remedial action taken, if any: Not Applicable

3. Provide details of the following disclosures related to water, in the following format:

5. **Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation. Mechanism implemented?(Yes / No):** Yes

Details: The Company is working towards making all its manufacturing units as Zero liquid discharge units. So far, Ankleshwar, Dahej CZ and Akola have developed the capability for 100% recycle of the treated water.

6. **Please provide details of air emissions (other than GHG emissions) by the entity, in the following format:**

Parameter	Please specify unit	FY 2026	FY 2025
		Current Financial Year	Previous Financial Year
NOx	MT	10.08	17.31
SOx	MT	13.18	15.92
Particulate matter (PM)	MT	11.93	13.62
Persistent organic pollutants matter (POP)		N.A.	N.A.
Volatile organic compounds (VOC)		N.A.	N.A.
Hazardous air pollutants (HAP)		N.A.	N.A.
Others – please specify		N.A.	N.A.

The comparatives for Financial Year 2024-25 have been restated due to the re-computation of Air Emissions (SOx, NOx, and PM). The company used certain assumptions relating to operating hours and flow rates of boilers and DG sets. In the current year, these computations are based on actual running hours and computed flow rates, where applicable. The comparatives have been restated to enable compatibility of information with FY 2025-26. The restated values have reduced by 44.82% for NOx, 33.86% for SOx and 33.21% for PM respectively in current year report compared with PY reported values.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Assurance has been carried out by an external agency(Yes / No) : Yes

7. **Provide details of greenhouse gas emissions (Scope 1 and Scope 2 emissions) & its intensity, in the following format:**

Parameter	Unit	FY 2026	FY 2025
		Current Financial Year	Previous Financial Year
Total Scope 1 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	17,631.72	30,896.35
Total Scope 2 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	47,753.20	26,007.49
Total Scope 1 and Scope 2 emission intensity per rupee of turnover (Total Scope 1 and Scope 2 GHG emissions / Revenue from operations)	Metric tonnes of CO ₂ equivalent/ Turnover (₹)	0.00000226	0.0000021
Total Scope 1 and Scope 2 emission intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP) (Total Scope 1 and Scope 2 GHG emissions / Revenue from operations adjusted for PPP)*	Metric tonnes of CO ₂ equivalent/ USD turnover adjusted for PPP	0.0000459	0.0000441
Total Scope 1 and Scope 2 emission intensity in terms of physical output#	Metric tonnes of CO ₂ equivalent/ MT of production	1.78	1.69
Total Scope 1 and Scope 2 emission intensity (optional) – the relevant metric may be selected by the entity	Metric Tonne/₹	-	-

Note: For estimation of Scope 1 GHG emissions, we have referred 2006 IPCC Guidelines for National Greenhouse Gas Inventories and IPCC Fifth Assessment Report for GWP values. For estimation of scope 2 GHG emissions, the emission factors prescribed as per CO₂ Baseline Database for the Indian Power Sector, published by Central Electricity Authority (CEA), Ministry of Power, Government of India, has been considered. Scope 1 GHG emissions calculation includes CO₂, CH₄, N₂O

Scope 1 emissions decreased by approximately 42.9%, from 30,896.35 tCO₂e in the previous year to 17,631.67 tCO₂e in the current year. This reduction is primarily attributable to a decrease in natural gas consumption during the reporting period. Biogenic emissions of 18,582.49 tCO₂e during FY 2025-26.

Scope 2 emissions increased by approximately 83.6%, from 26,007.49 tCO₂e in the previous year to 47,753.20 tCO₂e in the current year, mainly due to the initiation of steam purchases, resulting in higher indirect emissions.

*The revenue from operations has been adjusted for PPP based on the latest PPP conversion factor published for the year 2026 by IMF for India which is 20.34.

#Since Rallis India Limited, has two different types of businesses, namely, crop care and seeds processing, wherein the physical output is reported in different units of measurement, hence, the data for intensity in terms of physical output (tonnes of production) is reported for the Crop Care business which contributes to 97% of our Scope 1 and Scope 2 GHG emissions. The Scope 1 and Scope 2 GHG emissions intensity in terms of physical output for our seeds processing business is 0.11 tCO₂e/MT of seeds processed for FY 2025-26 and 0.11 tCO₂e/MT of seeds processed for FY 2024-25.

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

The Company has in place a robust system for managing non-toxic wastewater generated from various sources, including manufacturing processes, canteen facilities, employee amenities, cooling towers, and boiler blow-down. This wastewater is treated in a well-equipped Effluent Treatment Plant (ETP) that includes primary, secondary, and tertiary treatment processes, followed by a Reverse Osmosis (RO) system. The tertiary treated effluent is either recycled through the RO system or discharged to a Common Effluent Treatment System (CETP), in compliance with regulatory norms.

Aqueous effluent from processes characterised by low Chemical Oxygen Demand (COD) and high Total Dissolved Solids (TDS) is directed to a Multiple Effect Evaporator (MEE). The condensate from the MEE is either treated further in the ETP or recycled/reused depending on its quality. From industrial processes streams containing high contents of salts or Organic load shall be segregated at evaporators (Inhouse or External MEE) after primary treatment.

Solid and hazardous waste management practices include:

1. Sludge generated from the ETP and evaporator units is disposed of at authorised secured landfill sites.
2. High calorific and high TDS hazardous waste is processed by authorised co-processors, including facilities in the cement industry for energy recovery.
3. Spent acids are sent to authorised end-users for recycling and repurposing into useful products.
4. Aqueous and organic waste is safely disposed of through authorised common incineration systems.

In line with our commitment to environmental stewardship, the Company has discontinued the production of highly toxic red triangle-labeled products, in accordance with the Insecticides Act. As a result, the overall toxicity of our product portfolio and waste output remains relatively low.

11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:

4. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

S. No.	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along- with summary)	Outcome of the initiative
1	Integrated Waste Management	<ul style="list-style-type: none"> Converting Hazardous waste like Spent Sulphuric Acid, Sodium Sulphate into useful product with partnership with authorised end users. Disposal of hazardous waste to Cement industry for coprocessing (as an alternate fuel / raw material). 	Conservation of Natural resources

5. Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.

Business Continuity Plans (BCP) have been designed by the Company to help in recovery from a disruption in production activities. Specifically, the objectives of BCP for Manufacturing plants are as follows:

- To identify various threats that can disrupt business operations Identify advanced arrangements and procedures that will enable the team to respond quickly to an emergency event and ensure continuous operations of critical business functions
- Reduce employee injury or loss of life and minimise damage and losses
- Protect essential facilities, equipment, vital records, and other assets
- Identify teams which would need to respond to a crisis and describe specific responsibilities
- Facilitate effective decision-making to ensure that operations are restored in a timely manner
- Identify alternative course of action to minimise and/or mitigate the effects of the crisis and shorten the response time
- Quantify the impact of any kind of event in terms of money, time, business and workforce Recover quickly from an emergency event and resume full-scale manufacturing of products in a timely manner
- Maintain the quality of manufactured goods and products, protect our customer base and brand during an emergency event.

Independent Practitioners' Limited Assurance Report

To the Directors of Rallis India Limited

Assurance report on select sustainability disclosures in the Business Responsibility and Sustainability Reporting (BRSR) and Integrated Annual Report

Assurance report on select sustainability disclosures (which are not part of BRSR Core) in Business Responsibility and Sustainability Report (BRSR) of Rallis India Limited (the 'Company') prepared in accordance with the Business Responsibility and Sustainability Reporting (BRSR) framework and select sustainability disclosures in the Integrated Annual Report (IAR) (together called 'Identified Sustainability Information' (ISI)) of the Company prepared with reference to the Global Reporting Initiative (GRI) Standards 2021 for the period 1 April 2025 to 31 March 2026.

Conclusion

We have performed an assurance engagement on the Identified Sustainability Information (ISI) as detailed in the table below:

Identified Sustainability Information (ISI) subject to assurance	Period subject to assurance	Page number in the Integrated Annual Report	Reporting Criteria
Select BRSR attributes (which are not part of BRSR Core) (refer Appendix 1)	1 April 2025 to 31 March 2026	2 to 85 149 to 185	- GRI Standards 2021 - Regulation 34(2)(f) of the Securities and Exchange Board of India (SEBI) Listing Obligations and Disclosure Requirements (SEBI LODR)
Select GRI Standards 2021 indicators (refer Appendix 2)			- Master Circular for compliance with the provisions of the SEBI LODR by listed entities, dated January 30, 2026 (Master Circular) prescribing <ul style="list-style-type: none"> o Format of the BRSR o Guidance notes for BRSR format - Greenhouse Gas (GHG) Protocol (A Corporate Accounting and Reporting Standard) (Revised) developed by World Resources Institute (WRI) / World Business Council for Sustainable Development (WBCSD) - Corporate Value Chain (Scope 3) Accounting and Reporting Standard developed by World Resources Institute (WRI) / World Business Council for Sustainable Development (WBCSD)

This engagement was conducted by a multidisciplinary team including assurance practitioners, engineers and environmental and social professionals.

Based on the procedures performed and evidence obtained, nothing has come to our attention to cause us to believe that the Company's Identified Sustainability Information in "Business Responsibility and Sustainability Report" and in Integrated Annual Report relating to select BRSR attributes (which are not part of BRSR Core) and select GRI indicators for the year ended 31 March 2026, is not prepared, in all material respects, in accordance with Greenhouse Gas (GHG) Protocol (A Corporate Accounting and Reporting Standard) (Revised), the Corporate Value Chain (Scope 3) Accounting & Reporting Standard, Regulation 34(2)(f) of the SEBI LODR, Master Circular, and with reference to the GRI Standards (2021) and basis of preparation set out in Section A of Business Responsibility and Sustainability Report section of the Integrated Annual Report.

Basis for conclusion

We conducted our engagement in accordance with International Standard on Assurance Engagements (ISAE) 3000 (Revised), Assurance Engagements Other Than Audits or Reviews of Historical Financial Information and ISAE 3410, Assurance Engagements on Greenhouse Gas

Statements, issued by the International Auditing and Assurance Standards Board (IAASB). Our responsibilities under those standards are further described in the “Our responsibilities” section of our report.

We have complied with the independence and other ethical requirements of the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA).

KPMG Assurance and Consulting Services LLP (“Firm”) applies International Standard on Quality Management (ISQM) 1, *Quality Management for Firms that Perform Audits or Reviews of Financial Statements, or Other Assurance or Related Services Engagements*, issued by the IAASB. This standard requires the firm to design, implement and operate a system of quality management, including policies or procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our conclusion.

Other information

Management and the Board of Directors are responsible for the “Other Information”. We have performed a reasonable assurance engagement on BRSR Core for the Company, and the assurance report has been issued on May 27, 2026

The Other Information comprises the information included in the Company’s Integrated Annual Report (but does not include the BRSR Core, the select BRSR attributes and GRI indicators, and assurance reports thereon.)

Our reasonable assurance opinion on the BRSR Core, limited assurance conclusion on the select BRSR attributes and select GRI indicators does not cover the Other Information and we are not expressing any form of assurance conclusion thereon.

In connection with our assurance report on the select BRSR attributes and select GRI indicators, our responsibility is to read the Other Information and, in doing so, consider whether Other Information is materially inconsistent with the select BRSR attributes and select GRI indicators, or our knowledge obtained in the assurance, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement therein, we are required to communicate the matter to Those Charged With Governance and describe actions under the applicable laws and regulations. We have nothing to report in this regard.

Intended use or purpose

The ISI and our limited assurance report are intended for users who have reasonable knowledge of the BRSR attributes and GRI indicators, the Reporting Criteria and ISI and who have read the information in the ISI with reasonable diligence and understand that the ISI is prepared and assured at appropriate levels of materiality.

Our conclusion is not modified in respect of this matter.

Management’s responsibilities for Identified Sustainability Information (ISI)

The management of the company are responsible for:

- designing, implementing and maintaining internal control relevant to the preparation of the Identified Sustainability Information that is free from material misstatement, whether due to fraud or error;
- selecting or establishing suitable criteria for preparing the ISI, taking into account applicable laws and regulations, if any, related to reporting on the ISI, identification of key aspects, engagement with stakeholders, content, preparation and presentation of the ISI in accordance with the Reporting Criteria;
- disclosure of the applicable criteria used for preparation of the ISI in the Integrated Annual Report;
- preparing/fairly stating/properly calculating the ISI in accordance with the Reporting Criteria.
- ensuring the Reporting Criteria is available for the intended users with relevant explanation;
- establishing targets, goals and other performance measures, and implementing actions to achieve such targets, goals and performance measures;
- providing the details of the management personnel who takes ownership of the ISI disclosed in the Integrated Annual Report;
- ensuring compliance with laws, regulations or applicable contracts;
- making judgements and estimates that are reasonable in the circumstances;

- identifying and describing any inherent limitations in the measurement or evaluation of information covered by assurance in accordance with the Reporting Criteria;
- preventing and detecting fraud;
- selecting the content of the ISI, including identifying and engaging with intended users to understand their information needs;
- informing us of other information that will be included with the ISI;
- supervision of other staff involved in the preparation of the ISI.

Those Charged With Governance are responsible for overseeing the reporting process for the company's ISI.

Inherent limitations

The preparation of the Company's sustainability information requires the management to establish or interpret the Reporting Criteria, make determinations about the relevancy of information to be included, and make estimates and assumptions that affect the reported information.

Measurement of certain amounts and BRSR attributes and GRI indicators, some of which are estimates, is subject to substantial inherent measurement uncertainty, for example GHG emissions, water footprint, energy footprint. Obtaining sufficient appropriate evidence to support our conclusion does not reduce the uncertainty in the amounts and metrics.

Our responsibilities

We are responsible for:

- planning and performing the engagement to obtain a limited assurance about whether the ISI is free from material misstatement, whether due to fraud or error;
- forming an independent conclusion, based on the procedures we have performed and the evidence we have obtained; and
- reporting our limited assurance conclusion to Directors of Rallis India Limited.

Summary of the work we performed as the basis for our conclusion

We exercised professional judgement and maintained professional skepticism throughout the engagement. We designed and performed our procedures to obtain evidence that is sufficient and appropriate to provide a basis for limited assurance conclusion.

Our selected procedures depend on our understanding of the information covered by limited assurance and other engagement circumstances, and our consideration of areas where material misstatements are likely to arise. In carrying out our engagement, we:

- assessed the suitability of the Reporting Criteria used by the Company in preparing the information covered by limited assurance;
- interviewed senior management and relevant staff at corporate and selected locations concerning policies for environment and occupational health and safety, and the implementation of these across the business;
- through inquiries, obtained an understanding of the Company's control environment, processes and information systems relevant to the preparation of the information covered by limited assurance, but did not evaluate the design of particular control activities, obtain evidence about their implementation or test their operating effectiveness;
- made inquiries of relevant staff at *corporate and selected locations responsible* for the preparation of the information covered by limited assurance;
- undertook physical site visits at eight facilities including the corporate office. The selection of these sites is based on the relative size of the workforce of these locations to the total workforce, relative manufacturing activity at these locations, unexpected fluctuations in the information subject to limited assurance since the prior period, and sites not visited in the prior period.
- inspected, at each site visited, a limited number of items to or from supporting records, as appropriate;
- applied analytical procedures, as appropriate;
- recalculated the information covered by limited assurance based on the Reporting Criteria; and
- evaluated the overall presentation of the information covered by limited assurance to determine whether it is consistent with the Reporting Criteria and in line with our overall knowledge of, and experience with, the Company's policies relating to environment and occupational health and safety.

The procedures performed in a limited assurance engagement vary in nature and timing from, and are less in extent than for, a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had a reasonable assurance engagement been performed.

Exclusions

Our assurance scope excludes the following and therefore, we will not express a conclusion on the same:

- Any form of review of the commercial merits, technical feasibility, accuracy of claims, compliance with applicable legislations. We have not verified any of the judgements in relation to commercial risks associated with the business activities.
- Operations of the Company other than those under the *Reporting Boundary set out in the section A of BRSR section of the Integrated Annual Report (Scope of Assurance)*.
- The Company's statements that describe the strategy, progress on goals (other than those listed under the scope of assurance, as mentioned above), expression of opinion, claims, belief, aspiration, expectation, aim to future intention provided by the Company, and assertions related to Intellectual Property Rights and other competitive issues.
- Aspects of the select BRSR attributes and select GRI indicators and the data/information (qualitative or quantitative) other than the ISI.
- Data and information outside the defined reporting period i.e., 1 April 2025 to 31 March 2026.

Independent Practitioners' Reasonable Assurance Report

To the Directors of Rallis India Limited

Assurance report on the sustainability disclosures in the Business Responsibility and Sustainability Reporting (BRSR) disclosures

Assurance report on the sustainability disclosures in the Business Responsibility and Sustainability Reporting (BRSR) Core Format¹ (called 'Identified Sustainability Information' (ISI) of Rallis India Limited (the 'Company') for the period from 1 April 2025 to 31 March 2026. The ISI is included in the Business Responsibility and Sustainability Report of the Company in the Integrated Annual Report for the period from 1 April 2025 to 31 March 2026.

Opinion

We have performed a reasonable assurance engagement on whether the Company's sustainability disclosures in the BRSR Core Format (refer Appendix 1 of this report) for the period from 1 April 2025 to 31 March 2026 have been prepared in accordance with the Reporting Criteria (refer table below).

Identified Sustainability Information (ISI) subject to assurance	Period subject to assurance	Page number in the Integrated Annual Report	Reporting Criteria
BRSR Core (refer Appendix 1)	From 1 April 2025 to 31 March 2026	149 to 185	<ul style="list-style-type: none"> - Regulation 34(2)(f) of the Securities and Exchange Board of India (SEBI) Listing Obligations and Disclosure Requirements (SEBI LODR) - Master Circular for compliance with the provisions of the SEBI LODR by listed entities, dated January 30, 2026 (Master Circular) prescribing <ul style="list-style-type: none"> o Format of the BRSR o Guidance notes for BRSR format - Greenhouse Gas (GHG) Protocol (A Corporate Accounting and Reporting Standard) (Revised) developed by World Resources Institute (WRI) / World Business Council for Sustainable Development (WBCSD)

This engagement was conducted by a multidisciplinary team including assurance practitioners, engineers and environmental and social professionals.

In our opinion, the Company's Identified Sustainability Information on pages 149 to 185 in the Business Responsibility and Sustainability Report (BRSR) section of its Integrated Annual Report for the period 1 April 2025 to 31 March 2026, is prepared, in all material respects, in accordance with the Regulation 34(2)(f) of SEBI LODR, Master Circular, the Greenhouse Gas (GHG) Protocol (A Corporate Accounting and Reporting Standard) (Revised) developed by World Resources Institute (WRI) / World Business Council for Sustainable Development (WBCSD) and as per the Reporting Boundary as set out in BRSR - Section A: General Disclosures.

Basis for opinion

We conducted our engagement in accordance with International Standard on Assurance Engagements (ISAE) 3000 (Revised), Assurance Engagements Other Than Audits or Reviews of Historical Financial Information issued by the International Auditing and Assurance Standards Board (IAASB). Our responsibilities under those standards are further described in the "Our responsibilities" section of our report.

We have complied with the independence and other ethical requirements of the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA).

¹ As per SEBI Master circular number SEBI/HO/49/14/14(7)2025-CFD-POD2/I/3762/2026

KPMG Assurance and Consulting Services LLP ("Firm") applies International Standard on Quality Management (ISQM) 1, *Quality Management for Firms that Perform Audits or Reviews of Financial Statements, or Other Assurance or Related Services Engagements*, issued by the IAASB. This standard requires the firm to design, implement and operate a system of quality management, including policies or procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

Management and the Board of Directors are responsible for the "Other Information". We have performed a limited assurance engagement on select BRSR attributes (which are not part of BRSR Core) and select Global Reporting Initiative (GRI) indicators for the Company. The Other Information comprises the information included in the Company's Integrated Annual Report (but does not include the select BRSR attributes and GRI indicators, BRSR Core and assurance reports thereon).

Our limited assurance conclusion on select BRSR attributes and select GRI indicators and reasonable assurance opinion on the BRSR Core does not cover the Other Information and we are not expressing any form of assurance conclusion thereon.

In connection with our assurance on the BRSR Core, our responsibility is to read the Other Information and, in doing so, consider whether the Other Information is materially inconsistent with the BRSR Core or our knowledge obtained in the assurance, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement therein, we are required to communicate the matter to Those Charged With Governance and describe actions under the applicable laws and regulations. We have nothing to report in this regard.

Intended use or purpose

The ISI and our reasonable assurance report are intended for users who have reasonable knowledge of the BRSR attributes, the Reporting Criteria and ISI and who have read the information in the ISI with reasonable diligence and understand that the ISI is prepared and assured at appropriate levels of materiality.

Our opinion is not modified in respect of this matter.

Management's responsibilities for the Identified Sustainability Information (ISI)

The management of the Company acknowledge and understand their responsibility for:

- designing, implementing and maintaining internal controls relevant to the preparation of the ISI so that it is free from material misstatement, whether due to fraud or error;
- selecting or establishing suitable criteria for preparing the ISI, taking into account applicable laws and regulations, if any, related to reporting on the ISI, identification of key aspects, engagement with stakeholders, content, preparation and presentation of the ISI in accordance with the Reporting Criteria;
- disclosure of the applicable criteria used for preparation of the ISI in the Integrated Annual Report;
- preparing/fairly stating/properly calculating the ISI in accordance with the Reporting Criteria;
- ensuring the reporting criteria is available for the intended users with relevant explanation;
- establishing targets, goals and other performance measures, and implementing actions to achieve such targets, goals and performance measures;
- providing the details of the management personnel who take ownership of the ISI disclosed in the Integrated Annual Report;
- ensuring compliance with law, regulation or applicable contracts;
- making judgements and estimates that are reasonable in the circumstances;
- identifying and describing any inherent limitations in the measurement or evaluation of information covered by assurance in accordance with the Reporting Criteria;
- preventing and detecting fraud;
- selecting the content of the ISI, including identifying and engaging with intended users to understand their information needs;
- informing us of other information that will be included with the ISI;
- supervision of other staff involved in the preparation of the ISI.

Those Charged With Governance are responsible for overseeing the reporting process for the Company's ISI.

Inherent limitations

The preparation of the Company's BRSR requires the management to establish or interpret the Reporting Criteria, make determinations about the relevancy of information to be included, and make estimates and assumptions that affect the reported information.

Measurement of certain amounts and BRSR Core metrics, some of which are estimates, is subject to substantial inherent measurement uncertainty, for example, GHG emissions, water footprint, energy footprint. Obtaining sufficient appropriate evidence to support our opinion does not reduce the uncertainty in the amounts and metrics.

Our responsibilities

We are responsible for:

- planning and performing the engagement to obtain reasonable assurance on the BRSR Core disclosures free from material misstatement, whether due to fraud or error, in accordance with the Reporting Criteria in line with the section above.
- forming an independent opinion, based on the procedures we have performed and the evidence we have obtained, and
- reporting our reasonable assurance opinion to the Board of Directors of the Company

Summary of the work we performed as the basis for our opinion

We exercised professional judgement and maintained professional skepticism throughout the engagement. We designed and performed our procedures to obtain evidence that is sufficient and appropriate to provide a basis for our reasonable assurance opinion.

The nature, timing, and extent of the procedures selected depended on our judgement, including an assessment of the risks of material misstatement of the information covered by reasonable assurance, whether due to fraud or error. We identified and assessed the risks of material misstatement through understanding the information covered by reasonable assurance and the engagement circumstances. We also obtained an understanding of the internal controls relevant to the information covered by reasonable assurance in order to design procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of internal controls. In carrying out our engagement, we:

- assessed the suitability of the Reporting Criteria used by the Company in preparing the information covered by reasonable assurance;
- evaluated the appropriateness of reporting policies, quantification methods and models used in the preparation of the information covered by reasonable assurance and the reasonableness of estimates made by the Company; and
- evaluated the overall presentation of the information covered by reasonable assurance.

Exclusions

Our assurance scope excludes the following and therefore we will not express an opinion on the same:

- Any form of review of the commercial merits, technical feasibility, accuracy of claims, compliance with applicable legislations. We have not verified any of the judgements in relation to commercial risks associated with the business activities.
- Operations of the Company other than those under the *Reporting Boundary set out in the Section A of BRSR section of the Integrated Annual Report (Scope of Assurance)*.
- The Company's statements that describe the strategy, progress on goals (other than those listed under the scope of assurance as mentioned above), expression of opinion, claims, belief, aspiration, expectation, aim to future intention provided by the Company, and assertions related to Intellectual Property Rights and other competitive issues.
- Aspects of the BRSR and the data or information (qualitative or quantitative) other than the ISI.
- Data and information outside the defined reporting period i.e., from 1 April 2025 to 31 March 2026.
